Technique:

1. Stamp images on the piece of white or vanilla cardstock. Color if needed.
2. Pat the entire piece of white or vanilla cardstock in Versamark ink. Emboss with Clear embossing powder. Repeat.
3. While the embossing powder is still hot, add more embossing powder and heat again. Repeat 10-15 times.
4. Let cool completely or put in the freezer for a few minutes.
5. Gently fold the cardstock so that it cracks.
6. Optional: use a sponge dauber to add ink over the image so that it gets into the cracks. Wipe off the excess ink from the image.
